

TD-20W V-Drums

Availability: May **RRP:** £4999

With the V-Pro Series TD-20K, Roland continues to reign the V-Drums industry and the TD-20K is now available in white as the TD-20W. At the heart of this flagship set is the TD-20 module with top quality sounds and functions, superb expressiveness and in-depth V-editing. The patented mesh pads feature great dynamic range and natural rim shot triggering, along with a cool look and stunning white finish. The TD-20W also features Roland's amazing V-Hi-Hat and has the same drum stand as the TD-20K to hide the cabling. With this powerful combination of pads and hardware, the V-Pro Series TD-20W lets drummers express themselves more naturally and with more realism than ever before.
